- 5) All major components are included in the Reserve Study and are included in its calculations.
- 6) Based on the method of calculation in paragraph (4) of subdivision (b) of section 5570 of the Civil Code, the estimated amount required in the reserve fund at the end of the fiscal year is \$2,334,020 based in whole or in part on the last Reserve Study Update prepared by Reserve Studies Incorporated as of February 1, 2020 for the 1/1/2021 calendar year. The projected reserve fund cash balance at the end of the fiscal year is \$657,011, resulting in reserves being 28.15% funded at this date.
- 7) Based on the method of calculation in paragraph (4) of subdivision (b) of section 5570 of the Civil Code (i.e. **Funding Plan #3 per the study**), at the end of each of the next five budget years the estimated amount required in the reserve fund, the projected reserve fund cash balance in each of those years, taking into account only assessments already approved and other known revenues, and the percent funded is as follows:

YEAR	ESTIMATED AMOUNT REQUIRED IN THE RESERVE FUND	PROJECTED RESERVE FUND CASH BALANCE	PERCENT FUNDED
12/31/2021	2,334,020	657,011	28.15%
12/31/2022	2,495,199	820,937	32.90%
12/31/2023	1,945,477	354,609	18.23%
12/31/2024	1,475,293	139	0.01%
12/31/2025	1,663,620	281,813	16.94%

If the reserve funding plan **approved by the association** is implemented, the projected reserve fund cash balance in each of those years, taking into account only assessments already approved and other known revenues including additional assessments detailed in #4 above, and the percent funded is as follows:

YEAR	ESTIMATED AMOUNT REQUIRED IN THE RESERVE FUND	PROJECTED RESERVE FUND CASH BALANCE	PERCENT FUNDED
12/31/2021	2,334,020	613,976	26.31%
12/31/2022	2,495,199	679,742	27.24%
12/31/2023	1,945,477	44,707	2.30%
12/31/2024	1,475,293	58	0.00%
12/31/2025	1,663,620	113,881	6.85%

NOTE: The financial representations set forth in this summary are based on the best estimates of the preparer at that time. The estimates are subject to change. At the time this summary was prepared, the assumed long-term before-tax interest rate earned on reserve funds was 1.00% per year, and the assumed long-term inflation rate to be applied to major component repair and replacement costs was 1.77% per year. **It has been assumed that a reserve funding plan has been adopted by the board of directors at an open meeting before the membership of the association as described in California Civil Code Section 5560 (a).**

For the purposes of preparing a summary pursuant to this section:

“Your Future is Our Business”

- 1) "Estimated remaining useful life" means the time reasonably calculated to remain before a major component will require replacement.
- 2) "Major component" has the meaning used in Section 5550. Components with an estimated remaining useful life of more than 30 years may be included in a study as a capital asset or disregarded from the reserve calculation, so long as the decision is revealed in the Reserve Study and reported in the Assessment and Reserve Funding Disclosure Summary.
- 3) The form set out in subdivision (a) shall accompany each pro forma operating budget or summary thereof that is delivered pursuant to this article. The form may be supplemented or modified to clarify the information delivered, so long as the minimum information set out in subdivision (a) is provided.
- 4) For the purpose of the report and summary, the amount of reserves needed to be accumulated for a component at a given time shall be computed as the current cost of replacement or repair multiplied by the number of years the component has been in service divided by the useful life of the component. This shall not be construed to require the board to fund reserves in accordance with this calculation.
